Rolling Along & Going Strong!

Railroads have a long-standing tradition of getting every last mile out of their rolling stock and engines. While railfans of the 1960s were looking for the newest second-generation diesels and admiring ever-bigger, more specialized freight cars, a lot of older equipment kept rolling right along. Work-a-day locals and wayfreights were no less colorful, with a mix of earlier engines and equipment that had recently been repainted and rebuilt. For HO modelers, a visit to that amazing era takes just a few minutes, with layout-ready releases like the new WaltherProto® GP7 and WaltherMainline® 40' AAR Modernized 1948 Boxcars.

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

HO Railroad Car Float
Walthers Cornerstone.
Great addition to steam- or diesel-era harbor scenes, this detailed HO Car Float kit is typical of equipment used by many railroads to ferry cars to and from isolated areas. Waterline model has no hull, so it fits easily into new or existing scenery. Includes three plastic tracks for easy construction, and the finished model will look great with the Cornerstone Railroad Tug Boat (#933-3153) and Car Float Apron (#933-3068), both sold separately.
