ON THE COVER

The wind has come up strong overnight, whipping a foot of snow into even deeper drifts that have closed roads and runways alike. Most folks are quite content to stay home, but it doesn't work that way on the railroad. A blast of air horns for the crossing, a flash of headlights and a torrent of black smoke blocks the pale sun as the diesels throttle up for a run at the obstacle ahead. Seconds later an avalanche flies up and off the rails leaving a clear path for waiting trains stacked up behind. Since the 1920s, railroads big and small have sent their Russell snowplows into battle, meeting winter's worst head-on, and winning! Out on the road or spending a quiet day waiting the call to duty, the WalthersProto® Russell Snowplow makes a great addition to your maintenance fleet. Fully assembled with road-specific details, check out the newest run of these superb HO replicas on page 16 in this issue.

The Next Level of Realism

Countless hours hunting for photos, researching specific details, carefully drilling dozens of mounting points in all the right places, custom mixing base colors, applying decals, subtle weathering, DCC upgrades.... We put a lot of effort into transforming our cars and locos into superb replicas, but what about track, the biggest model in your basement? Designed with the same levels of detail and performance as today's rolling stock, all-new WaltherTrack™ makes it easy to re-create everything from weed-grown sidings to super-elevated main lines. Dark brown ties molded with fine wood grain, spikes and tie-plates capture the look of prototype track, while custom formulated nickel silver rail in Code 83 and Code 100 delivers outstanding electrical performance. There's a full selection of accessories, and more are on the way - see what's new on page 18!

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.
