WELCOME

Shorter days mean more time in the train room, and we've got some great new products, super savings and much more in this issue to get your fall modeling on track!

Make your train room a classroom with our STEAM projects and suggestions on pages 4-7 inside!

New roadnames are rolling your way for Walther'sMainline® Alco PA-PB diesels and 85' Budd cars! Check out the newest HO passenger equipment on pages 8-9 inside.

Cool additions to your HO work train fleet get ready for winter's worst with the newest Walther'sProto® Russell Snow Plows. See page 10 for complete details.

You'll be taking care of business with three new series of HO cars from Walther'sProto, based on executive fleet equipment used by UP, ATSF and BNSF. The selection starts on page 11 in this issue!

Make passengers aboard your HO Walther'sProto Hiawatha more comfortable with new yellow and gray versions of the Super Dome and Skytop Observation. Check out the many features of these amazing replicas on page 13.

City or country, the new Modern Communications Tower from Cornerstone® puts big detail in a small space. Check out this contemporary HO kit on page 14 for the first time!

Modernize HO highways in minutes with the new SceneMaster™ 53' Stoughton Trailer 2-Packs! Turn to page 15 for complete details.

Keep your equipment running its best with the new Lubricant Set from Walther's Tools! Perfect for maintaining models old or new, turn to page 15 for complete details.

Find out more about these new models at walthers.com, by calling us at 1-800-487-2467 or visit your participating hobby shop to reserve any model in this issue.

Happy modeling!

ON THE COVER

GET STEAM'ED UP for school with model railroading and Walther's! Whether your kids are in the classroom or studying from home, model railroading can be a gateway to a lifetime of learning all year long – and it's lots of fun! Embracing a wider range of skills than almost any other hobby, model trains are easily adapted to every age group and interest, as well as students with special needs. Encouraging creative thinking through hands-on learning, it's ideal for expanding STEAM programs, and building on core areas that include reading, writing, history, social studies computers, vocational skills and more. With everything you need from starter sets to accessories, we're ready to help you create and customize the ideal learning experience for your family - turn to page 4 for some great starter project ideas!

YESTERDAY'S BEST TODAY

Every hour of the day and night, trains roar across this stretch of high desert. But today, there's something different on the horizon. The steady roar of engines making speed echoes off the canyon walls and fades quickly as the yellow cars roll into view. No one would blame you for thinking it was a mirage; many of these same cars once raced through here on the famed City Domeliners. Pride of the Union Pacific Heritage Fleet preserving the best of yesterday for tomorrow, these historic cars play a key role, entertaining everyone from important clients to townspeople all along the railroad. Best of all, the famed fleet is returning to HO Scale in a new run of WalthersProto® replicas! Fully assembled with factory-printed names and UPP number and now in both Standard and LED-lighted versions, turn to page 11 for the complete selection!

Full Steam ahead for school with Model Railroading and Walthers!

Are you a life-long learner? Looking for a way to engage your brain? Better yet, looking for ways to engage both your head and your hands? Or, perhaps you're an educator looking for creative ways to engage your students and teach important concepts in a hands-on way? You've come to the right place!

Whether your kids are in the classroom or studying from home, model railroading can be a gateway to a lifetime of learning -- and it's lots of fun! There's so much to learn and do, it truly is good, constructive, hands-on fun for all ages. While model railroading has been enjoyed for over a hundred years as a hobby, it can be a fantastic platform and hands-on teaching tool for educators, too.

Here at Walthers, we're happy to help you start a journey that can follow any approach you or your students desire - one that has creativity, building, and learning at its core.

Embracing a wider range of skills than almost any other hobby, model trains are easily adapted to every age group and interest, as well as students with special needs. Encouraging creative thinking through hands-on learning, it's ideal for expanding STEAM programs, and building on core areas that include reading, writing, history, social studies, computers, vocational skills and more.

10 EASY WAYS TO GET STARTED

We have everything you need from starter sets to accessories to create and customize the ideal learning experience for your family.

1 Install Working Lights

Brighten any building with lights - inside or out! Learn the basics of simple circuits and wiring using various lights and your power pack.

Photo by Robert Boerman

Photo by Marc Pitanza

2 Weather A Boxcar

Rust, dust, grime and sunlight, all take their toll on railroad equipment. Using everything from powders to paints, weathering a car is a fun way to study the environment and art at the same time!

3 Power A Turnout

Sharpen critical thinking with this fun hands-on project that teaches basic carpentry, electronics and mechanical skills.

Photo by Seth Puffer

4 Build A Rock Outcropping

Rock your model world with some realistic landscaping! Study the kinds of rock formations in your area then re-create them in miniature.

5 Create A Pond

Bring your little world to life with a water feature! A great science and modeling project that covers everything from how ponds form to the kinds of plants and animals nearby.

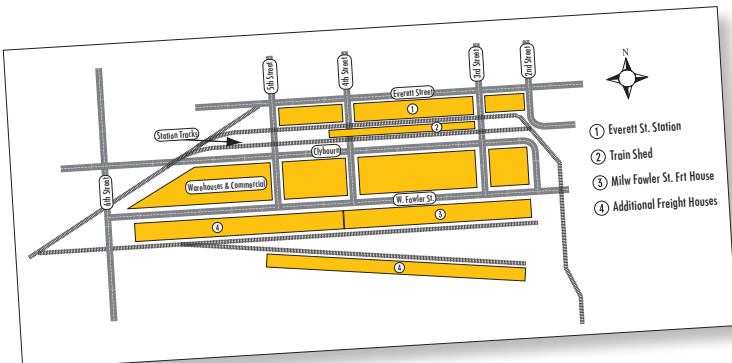

6 Create A Fall Scene

Study the change of seasons and scenery in fun ways, from making your own trees to a miniature pumpkin patch!

7 Plan A City Scene

Looking back and looking ahead, this is a fun lesson in history and social studies showing how cities change and why.

8 Animate Crossing Signals

Making model highways safer, this project looks at how different kinds of transportation work together, along with simple electrical skills.

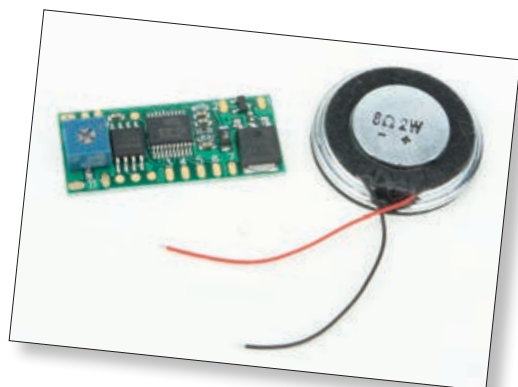

9 Build A Cornerstone Structure

Art, history, architecture, and engineering come together in a fun project that teaches sequential thinking while building fine motor skills.

10 Add Sounds To Your Layout

Study the science behind how natural and man-made sounds are created and why, along with basic electronic skills with premade modules, speakers and more.

A Note on Availability

At Walther's, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walther's and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

HO Small Business Center
Walthers Cornerstone. A fixture of contemporary industrial parks, the Cornerstone Small Business Center is a perfect location for any HO Scale start-up company! Based on similar tip-up style structures seen all across North America, the kit includes a modern front facade with large office-style windows and entry doors, as well as a raised walkway that simplifies scenery construction for an authentic higher front parking lot and lower truck dock on back wall as seen at many facilities.

NEW HO Rolling Mill with Reversing Mill Stand
Walthers Cornerstone®.

A must for any steel works, this Cornerstone kit builds a typical North American facility, and is easily adapted to model other large industries. Parts to model a four-high reversing mill stand with rolling table, motor and walkways are included, and the base features molded plastic rails, soaking pits and mill stand supports. For easy kitbashing and customizing, molded cut lines make it easy to remove the lower sidewalls, and additional kits (each sold separately) can be combined for a bigger operation.
