COVER STORY: "Hunter's Point next stop... Hunter's Point!" It's a familiar refrain that always lifts the spirits of tired commuters. Some are already standing as the train brakes to a stop, eager to be heading for home after a long workday. People may come and go, but the railroad's work is never really done. More commuter trains are hot on the heels of this one, and once the rush is over, freight traffic will be moving. Odds are there's a cut of cars down in the yards that will soon be delivered to the massive Sunshine Biscuits plant and the Bloomingdale's warehouse on this superb N Scale layout built by Tom Bielefeld. Based on the Long Island Railroad of the 1960s, the action includes an Alco C420 from Atlas, while the big factory buildings were kitbashed from Walthers Cornerstone® kits.

THIS PAGE: "Clear!" The fireman shouts to be heard above the roar.

"Clear" the engineer yells back, glad to be able to keep the heavy train moving uphill in the coming fight against the grade and gravity.

A steady hand on the throttle, and years of experience tell the engineer exactly when and where a slight touch on the sanders is needed. Passengers never notice the change as the ride stays sure and smooth, save perhaps for the sharper bark of the exhaust and the plume of smoke trailing back.

It's easy to let your imagination roll with today's amazing N Scale models that are the stars of this scene by Arnie Steiner. On the pages that follow, you'll find plenty of N Scale products and ideas to unleash your own creativity!

[Focus on N Scale](#)

BIG DREAMS FOR SMALL SPACES AND BEYOND

Ever since the first standard gauge toy trains rolled into living rooms in the early 1900s, innovative manufacturers and modelers alike have risen to the challenge of building and running smaller replicas. Today's N Scale traces its start back to the 1960s when the new 9mm gauge, or N Scale as it came to be known (the word for "nine" begins with "n" in most languages), first captured the imagination of modelers worldwide.

BIG PLANS FOR YOUR NEXT LAYOUT?

N Scale is an ideal choice! At roughly half the size of H0, you can create everything from towering mountains to bustling cities where trains blend in with their surroundings - just as they do in the real world. And when it comes to operations, N Scale lets you run those long, long freights and passenger trains without compromise.

While many early models were toy-like, those days are long gone! Today's N Scale replicas have all the details and performance features of the bigger scales. Smooth, reliable drives, onboard DCC and sound, working lights, realistic couplers and add-on parts are standard on contemporary models. You'll also find a full selection of freight and passenger cars, structures, scenery materials and other accessories too!

Starting out or starting over, you'll find thousands of N Scale products and supplies available at Walthers to turn your dreams into a working railroad!

EXCITING ADDITIONS TO WALTHERS N SCALE SELECTIONS

You can't spell "New" without N, and Walther's is working to bring you an exciting line-up of Cornerstone structure kits, SceneMaster products and Chooch accessories to bring your N Scale layout to life, with more on the way!

Whether inside the concrete canyons of a major city, or quiet farms in the open country, or street running past Main Street shops, the story of your railroad starts with structures. Cornerstone offers dozens of choices in N Scale, including many different types of heavy industries, railroad stations and servicing facilities, suburban homes, and rural buildings, that are all easily mixed and matched for your favorite area and era! Each is designed for easy construction, with parts molded in realistic colors, and include complete instructions.

You'll also find a unique variety of accessories to speed construction from Chooch. These highly detailed resin castings include many common styles of wood, stone and concrete structures including bridge piers, tunnel portals and more, for super-realistic results along your right-of-way!

When it comes to the finishing touch of realism, you'll find dozens of items to unleash your creativity from SceneMaster! There's a full range of easy-to-use ground cover and scenery materials, along with unique accessories that add so much to any small scene.

N SCALE CORNERSTONE: IT'S IN THE DETAILS

Attention to the smallest details makes a big difference in every Cornerstone N Scale kit! Superb tooling delivers maximum realism, from the finely molded brickwork, doors and windows as seen in this close-up, to add-on parts for the finishing touch. Each is engineered for easy assembly with parts molded in colors, and comes complete with illustrated step-by-step instructions. Whether you're modeling a busy downtown, a hard-working industrial area, a peaceful farm or a quiet suburb, there's a Cornerstone kit to bring your layout to life, with more on the way!

COMMITTED TO EXCELLENCE

Broadway Limited Imports stands as a premier manufacturer of HO and N scale model trains, renowned for their commitment to excellence in every aspect of modeling. From impeccable detail and smooth, powerful performance to top-quality onboard sound and innovative features, they continually strive to surpass the customers' expectations.

Broadway Limited's legacy began with pioneering onboard sound in HO scale locomotives back in 2002, and today, Broadway Limited remains at the forefront of the model railroading industry with cutting-edge electronics, synchronous smoke, and unrivaled sound realism. Taking pride in ongoing investment in innovation and technology, the result is phenomenal advancements that elevate the hobby for customers worldwide.

Comprising a dedicated team of 15 individuals, Broadway Limited Imports is driven by a passion for creating the most authentic model railroading experience imaginable, coupled with unparalleled customer service. In-house engineering and product development continually introduce groundbreaking features that set them apart from the competition. While their team may be small, their award-winning products and global acclaim speak volumes about their commitment to excellence.

STEAM IS IN!

Broadway Limited has released a lot of great steam locomotives in the past 6-7 months. Most recently their Reading T1 which features new tooling, accurate sounds recorded from the prototype, and many different paint schemes. These are in stores now!

MANUFACTURER SPOTLIGHT

SOUND ISN'T JUST FOR LOCOMOTIVES!

Stock cars were used to transport a variety of live animals, such as cattle, mules, horses, as well as hogs sheep and calves. Animal transport was an important revenue stream for many railroads.

The Broadway Limited stock car model is based on a Pennsylvania Railroad K7A car. Sound-equipped stock cars have motion-operated on/off technology so that livestock noises can be heard when the train moves or is jostled, just like in real life!

Note that holiday-themed cars do not make livestock sounds, but rather play appropriate songs and sounds associated with the holiday. The Halloween-themed car plays spooky music and sounds randomly as it travels along the track. Christmas themed cars play Christmas carols and Santa sounds, and the Independence Day car plays the national anthem and the song Stars & Stripes Forever.

WHAT ABOUT HO SCALE?

Broadway Limited has a lot of great items coming to HO scale! First, the Boston and Maine T1a/ T1b Berkshires. In the 1920s, in stiff competition with the Boston & Albany, the B&M was looking for better motive power to handle the stiff grades across the hills of Massachusetts. All 25 locomotives were equipped with a notable Coffin feedwater heater extending forward from the smokebox, and trailing trucks with boosters. The most noticeable difference between the T1a and T1b locomotives is the shape and size of the large sand dome in the center of the boiler, and there are several less visible differences modeled in the conduit and piping. Another major difference is that the T1a locos ran with a 4-wheel tender for much of their lives, whereas the T1b engines ran with a 6-wheel tender from the beginning. Models of the T1a have a 4-wheel tender, and models of the T1b have a 6-wheel tender.

In addition to the B&M variants, the AT&SF and SP versions, acquired from the B&M during World War II, are also being offered.

Their rolling stock offerings in HO scale are being expanded with the PB70 Combines and Z74D Business Cars. These cars feature era-specific details, developed in collaboration with the PRRT&HS to ensure accuracy to the prototypes. These will be available later this year!
