## ON THE COVER

Having the right tools for the job makes all the difference. From the day the first diesel rumbled onto the railroad, it became apparent that the new technology would require new ways of doing things. Diesels as it turned out were more like automobiles, where repairs needed to be made "under the hood" and purpose-built diesel houses looking much like garages, soon appeared alongside older roundhouses. Our new HO Scale 130' 2-Stall Brick Diesel House (#933-2923) makes it easy to add this important structure to any terminal from the 1930s to the present and will look great alongside other Cornerstone® kits. From F Units like the newly arrived WaltherProto® replica spotted inside, to contemporary WaltherMainline SD70ACes, be sure to check out the exciting motive power showcased in this issue too!

# WEEKEND WARRIORS

While most of us take it a little easy over the weekend, it's a different story for the railroads. Weekdays, you'll find this venerable F7 racing the clock back and forth to make sure commuters arrive on time. Things are a little more relaxed come Saturday and Sunday, but there are still all sorts of odd jobs that need doing. So rather than idle their time away in outlying suburban terminals, they're temporarily assigned to freight duties. Today's extra is powered by the newly arrived Walther'sProto® F7, doing double-duty with the Walther'sMainline® 40' American Car & Foundry (ACF) Modernized Welded Boxcar with 8' Youngstown Doors. A perfect fit for layouts from the 1960s to the 1980s, check out this new boxcar body style for the first time on page 7, and see page 13 for more details on the locomotives.

### A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check [walthers.com](http://walthers.com), email us at [custserv@walthers.com](mailto:custserv@walthers.com) or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

# A NEW APPROACH TO MODELING IS HERE!

## INTRODUCING WALTHERS ALL NEW MODELING KITS!

A subscription program for both new and experienced modelers, each kit is an all-in-one crate filled with the materials and instructions you need to build a miniature world!

## DELIVERED STRAIGHT TO YOUR DOOR!

Walthers *Build-A-World* is a six month program with a kit delivery each month, taking you from start to finish on creating your own 12" x 24" diorama.

## CUSTOM THEMES

Choose from a number of themed programs including rural and urban scenes. These 'kitchen table' projects are perfect for dorm rooms, apartments, youth clubs and senior living communities. And when completed, can be proudly displayed and used to showcase your favorite trains (not included).

## TEACHING NEW SKILLS

Each kit builds on the teachings of the previous, introducing you to the skills used in model railroading and the creation of miniature worlds. Already a modeler? Walthers *Build-A-World* kits let you brush up on your skills with easy to access "How-to" videos created by top modelers along with printed instructions.

## CONNECTING YOUR WORLD

Great team activity for clubs, friends and family. Move away from the electronics and let your creativity soar. Clubs and youth groups can each work on a kit and compare the results. How will you make your diorama unique?

*Perfect for gift giving!*

## SERVING MODELERS WORLDWIDE FOR OVER 75 YEARS

With a history of innovation and inspiration that stretches back some 75 years, Peco has grown from a tiny cottage industry founded by Sydney Pritchard in 1946 to a leading supplier of model railroad track and accessories. Produced entirely in-house at the company's headquarters in South Devon, England, the current Streamline selection includes over 20 different lines in popular gauges from Z to G that includes both standard and narrow gauges. Choose from a full selection of standard gauge, narrow gauges used by railways around the globe, and Code 70 and Code 83 built especially for North American modelers.

## MORE OPTIONS WITH NEW UNIFROG TURNOUTS

For even easier wiring and installation, Peco has recently begun upgrading select turnout with its innovative new Unifrog, which will eventually replace the traditional Insulfrog and Electrofrog. Combining the best features of the originals in one, Unifrog turnouts can be used right out of the package with unpowered frogs, or simply connect power to the factory-installed wiring at any time, with no need to remove or replace the turnout. Several sizes are now available and more are planned for future release.

**HO Railroad Car Float**  
Walthers Cornerstone®.  
Great addition to steam- or diesel-era harbor scenes, this detailed HO Car Float kit is typical of equipment used by many railroads to ferry cars to and from isolated areas. Waterline model has no hull, so it fits easily into new or existing scenery. Includes three plastic tracks for easy construction, and the finished model will look great with the Cornerstone Railroad Tug Boat (933-3153) and Car Float Apron (933-3068), both sold separately.
